## REFERENCE LETTER

We were introduced to the marketing services of ExpandX Marketing & Web via a business partner of ours based in London, UK. As the recommendation was strong, we have established communication with the team of ExpandX Marketing & Web and introduced our business challenges related to digital and traditional marketing.

The team of ExpandX Marketing & Web took a very professional approach in the marketing analysis of our business operations and overall marketing positioning which as the team explained was a very important and fundamental starting point for the marketing strategy and marketing services that were to be developed and executed.

Without any doubt this immediately signalled us in a very positive way as we found the approach and the professional set taken to be of very high level. Our project was with a projected timeline of 12 months and this was very important to us.

Once we the team of ExpandX Marketing & Web completed the preliminary analysis and presented us the custom marketing strategy, mix of activates and details of how the project goals will be met we commenced work. Since then the agency proved every single aspect of what was outlined in the overall campaign strategy, processes and the goals we set were reached with efficiency.

We are grateful to the team of ExpandX Marketing & Web for the quality marketing services delivered and we will be glad to work with them again in the future.

Sincerely,

A handwritten signature in blue ink, appearing to be "JB", with a long horizontal line extending to the right across the signature.

John Boystone
